公司理念： 爱护地球，保护自然，创造良好生活环境，实现人类幸福生活。

我们倡议： 创造并提供无公害、无污染的产品。

我们追求： 世间万物生于自然，还于自然，生生不息，和谐共处。

Company philosophy: Love the earth, protect nature, create a good living environment, to achieve a happy life of human beings.

Our initiative: To create and provide high qulity, pollution-free products.

We pursue: Everything in the world is born in nature, but also in nature, endless life, harmonious coexistence.

源心·企业介绍
COMPANY PROFILE

青岛绿源金地工业设备有限公司座落于美丽的滨海城市-青岛，是一家主要从事有机固废生物处理相关领域设备研发和生产，工程安装及服务的综合型科技企业。多年来我们立足环保产业，深耕生态农业领域，持续投入，不断发力于养殖粪污，田园废弃物，市政污泥，餐厨垃圾等有机废弃物，通过好氧发酵设备进行堆肥化处理，实现物料的腐熟化、无害化、均一化、干燥化，同时生产出优质的有机肥，实现清洁生产，改善自然环境，助力生态文明建设。公司多项技术、产品与日本有30多年发酵设备生产经验的公司合作，为广大用户提供有机废弃物资源化利用一站式解决方案。

QINGDAO GREEN WORLD INDUSTRAIL EQUIPMENT CO., LTD.located in Qingdao, a beautiful coastal city, is a comprehensive science and technology enterprise mainly engaged in equipment R & D, production, engineering installation and service in the fields related to organic solid waste biological treatment. Over the years, based on the environmental protection industry, we have been deeply engaged in the field of ecological agriculture, continued to invest, and constantly focused on the composting treatment of aquaculture fecal sewage, pastoral waste, municipal sludge, kitchen waste and other wastes through aerobic fermentation equipment, so as to realize the maturity, harmlessness, homogenization and drying of materials, and produce high-quality organic fertilizer to realize cleaner production, improve the natural environment and contribute to the construction of ecological civilization. The company owned multiple technologies,which were cooperated with Japanesse fermentation equipment company of more than 30 years experiences, providing one-stop solution of organic waste recycling for users.

源理·核心优势
CORE ADVANTAGES

高温好氧堆肥是在人工控制一定的水分、C/N和通风条件下，通过微生物的发酵作用，将废弃有机物分解转化的过程。通过堆肥化过程，有机物由不稳定状态转变为稳定的腐殖质物质。因经过高温发酵其堆肥产品不含病原菌，不含杂草种子，而且无臭无蝇，可以安全处理和保存，是一种良好的土壤改良剂和有机肥料，实现物料的灭菌、减量、减容、腐熟、干燥。

High temperature aerobic composting is a process of decomposing and transforming waste organic matter through microbial fermentation under the condition of manually controlling certain water, C / N and ventilation. Through the composting process, organic matter changes from unstable state to stable humus material. After high-temperature fermentation, the compost product does not contain pathogenic bacteria, weed seeds, odorless and fly free. It can be safely treated and preserved. It is a good soil conditioner and organic fertilizer. Realizing the sterilization,less volume,decomposition and drying of materials.

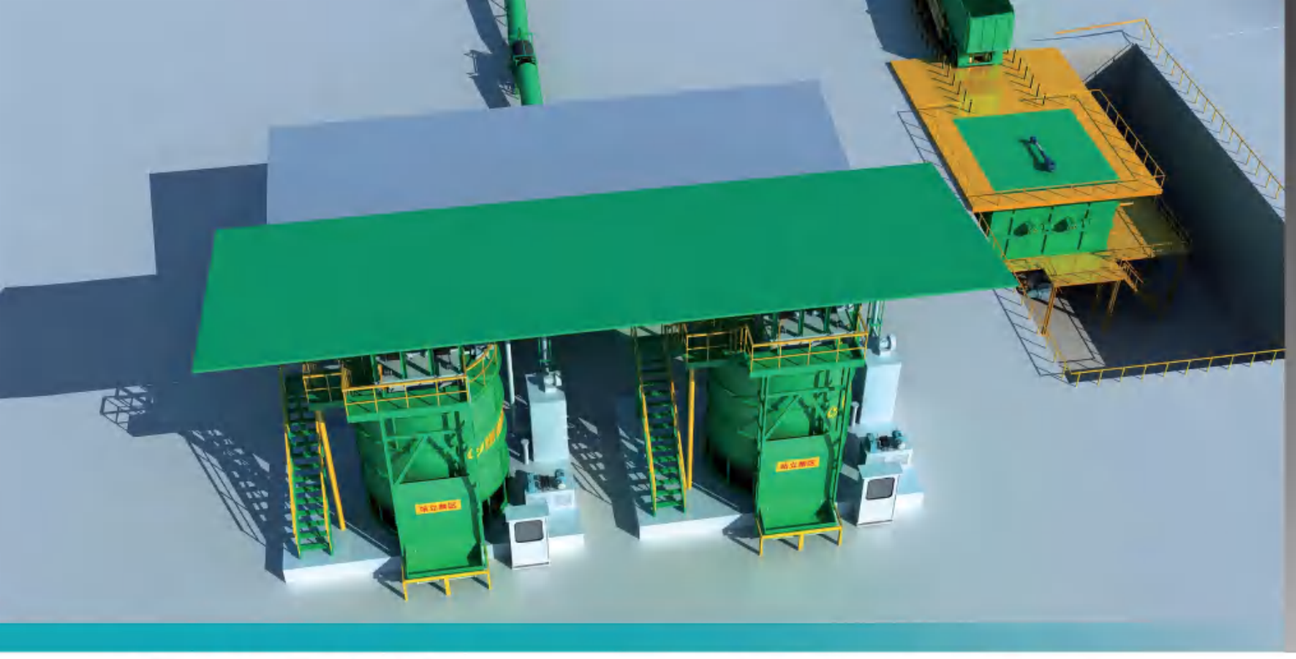
高效密闭式发酵机 HIGH EFFICIENCY CLOSED FERMENTATION MACHINE

·产品优势 PRODUCT ADVANTAGES

· 占地面积小，土建成本低
· 使用寿命长（污物接触处理室为不锈钢）
· 设备无腐蚀、机械传动部分与污物分离
· 运行平稳、可靠、液压传动噪音小
· 运行成本低、独特设计，无需添加辅料，菌种
· 产出优质有机肥，高效短时间发酵，养分损失少
· 臭气可集中收集，通过脱臭处理达标排放，无二次污染
· 按钮操作简单方便，工作环境好

· Small floor area and low civil construction cost
· Long service life(waste treatment room made of stainless steel)
· The equipment is free from corrosion due to waste separation from mechanical transmission parts
· Stable and reliable operation, low hydraulic transmission noise
· Low operating cost, unique design, no need to add auxiliary materials, strain
· It can produce high-quality organic fertilizer, high-efficiency and short-time fermentation, and less nutrient loss
· Odor can be collected in a centralized manner and discharged up to standard through deodorization treatment, without secondary pollution
· The button operation is simple and convenient, and the working environment is good



•产品规格 PRODUCT SPECIFICATION

节能、高效、稳定、可靠 ENERGY SAVING, EFFICIENT, STABLE, AND RELIABLE

规格型号 SPECIFICATIONS AND MODELS	容积约(m³) VOLUME ABOUT (m³)	总装机功率(KW) 环境温度0℃以上 TOTAL POWER (KW) AMBIENT TEMPERATURE ABOVE 0℃	总装机功率(KW) 环境温度0℃以上 TOTAL POWER (KW) AMBIENT TEMPERATURE BELOW 0℃	占地面积约(m²) OCCUPIED LANDAREA ABOUT(m²)	使用原料 RAW MATERIALS USED	备注 REMARK

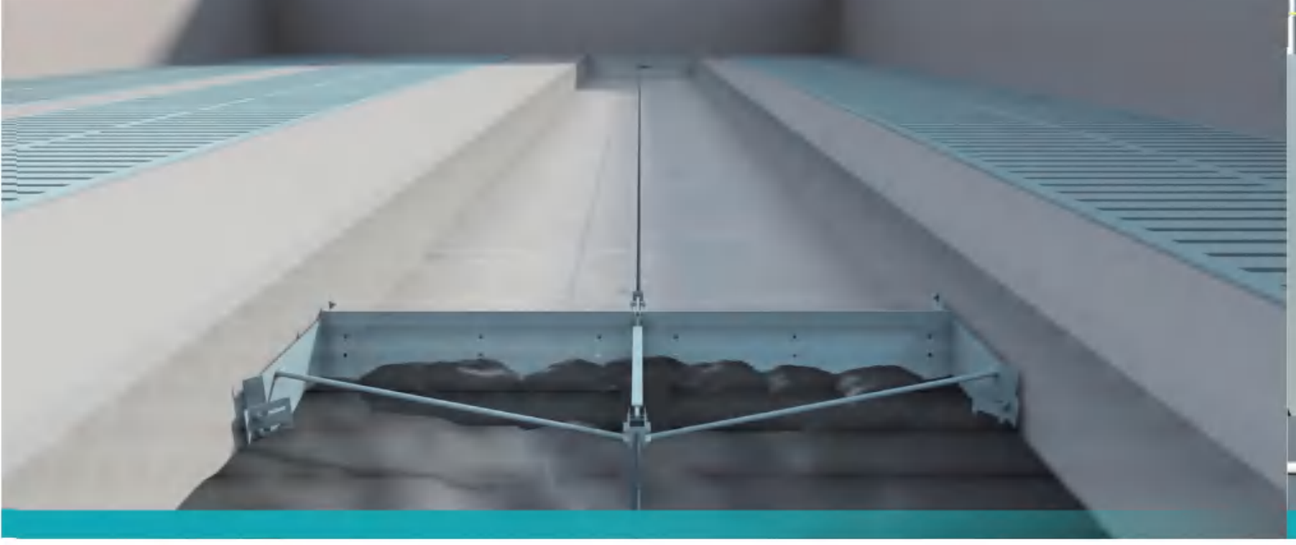
大容量垂直搅龙发酵机 LARGE CAPACITY VERTICAL AUGER FERMENTATION MACHINE

·产品优势 PRODUCT ADVANTAGES

· 设备设计简单、粗壮，故障率低，运行成体低
· 设备采用多根垂直搅龙搅拌，破碎能力强，肥料不上扬，臭气少
· 发酵速度快；发酵槽堆深高，有效保持发酵产生的热量，促进发酵速度，即使在北方的冬天也可安定发酵
· 单槽发酵，使用土地少，土建成本低
· 发酵槽宽5~18m，堆肥高度1.5~3m，设备处理量大，可实现大规模工厂化生产

· Easy designed, sturdy, less failure rate, low operating costs
· Several vertical augers mixing, strong crushing capacity, fertilizer doesn' t rise, less bad smell
· Fast fermentation speed, high fermentation pile in the groove, effectively keeping the heat produced by fermentation to promote the fermentation rate, even stably fermented in cold area
· Single groove fermentation, less land use, low civil construction cost
· Fermentation groove width 5~18m, Fermentation pile height 1.5~3m, high treating capacity, large scale factory production is possible



全自动清粪系统 AUTOMATIC FECAL CLEANING SYSTEM

•产品优势 PRODUCT ADVANTAGES

- 品质优良，施工便捷，性能稳定，持久耐用
- 与地基坡度相配合的独特尿管既保证了粪尿分离，又使地基施工更加便捷准确
- 出粪搅龙设置防冻结功能，即使北方冬季也可使用
- 平刮板和V型刮板可根据客户需要订制，宽幅0.8-3m

- Excellent quality, convenient construction, stable performance and durability
- The unique urinal matched with the foundation slope not only ensures the separation of feces and urine, but also makes the foundation construction more convenient and accurate
- The dung auger is equipped with anti freezing function, which can be used even in cold area
- Flat scraper and v-scraper can be customized according to customer needs, with a width of 0.8-3m
